Tools: Windows | Microsoft Office | VS Code | Netlify | Vercel | Figma | Canva | Photoshop

Projects:

Craftopia (A website where one can enroll to different courses and can post courses)

[Live Link](#) | [GitHub Link Client](#) | [Server](#)

Technology used: React.js, Tailwind CSS, DaisyUI, JWT, Node, Firebase Authentication, MongoDB.

Features,

- Registration and login functionality for users
- User roles: Initially joined as a student, later can be made an instructor by the admin
- Different views based on user role: Students can access class and instructor information, select classes, make payments, and view enrolled classes. Instructors can post classes, subject to approval by the admin. Admin has the authority to manage users, approve or deny posted classes.

TinyZoo (A website to sell Animal toys)

[Live Link](#) | [GitHub Link Client](#) | [Server](#)

Technology used: React.js, Tailwind CSS, DaisyUI, MambaUI, Node, Firebase Authentication, MongoDB.

Features,

- Discover a vast selection of animal toys worldwide and search them by name in all toy sections.
- Create an account to access detailed toy information, post toys for and manage your listings.
- Log in using your username and password or through Google login to view, edit, update, and delete your posted toy listings.

HERO's recipe (A website to show recipe from around the world)

[Live Link](#) | [GitHub Link Client](#) | [Server](#)

Technology used: React.js, Tailwind CSS, DaisyUI, Firebase Authentication.

Features,

- Get information about the chef's background, experiences, and culinary expertise.
- Discover the chef's personal rating and their popularity in the culinary world.
- Explore the chef's signature recipe and discover dishes with high ratings.

Education:

BSC in CSE, International Islamic University Chittagong (2018-2022)

Language:

Bangla (Native) | English (Comfortable) | Hindi (Fluent)

Other Experiences:

I was a teaching assistant in my university for these courses

- CSE-3532 (Tools and technologies for internet programming)
- CSE-4744 (Computer Security Lab)
